An early morning history lesson...

North Park Lake and its amenities were added to the park around 1936 utilizing Civilian Conservation Corps (CCC) funding. The overall project consisted of the construction of an artificial lake, new and relocated roadways, boat docks, and a boathouse. The total cost came in at a mere \$1,160,620. Adjusted for inflation that's just over \$19 million. The price tag for the boathouse was only \$64,539.
